

# THE GUNBUDDY BOYS

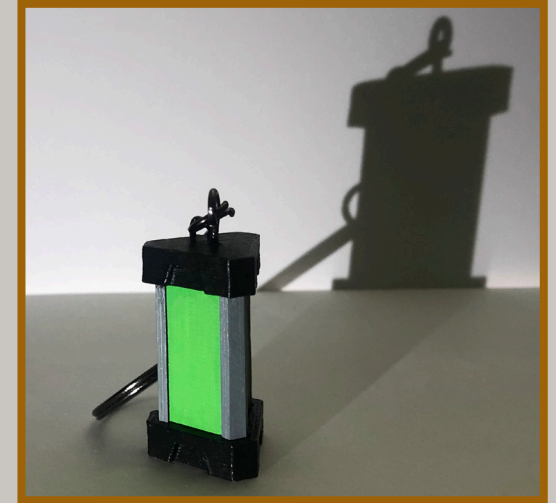

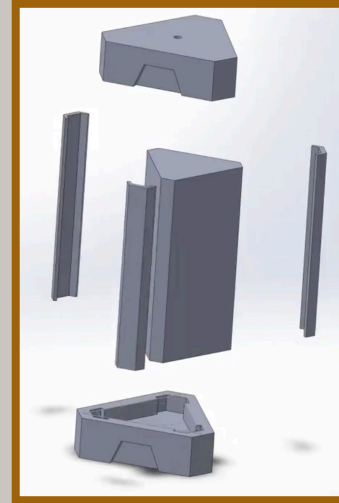

## ORIGINS

Matt Heng and Charles Zhang were two avid gamers captivated by Riot Games' latest project, Valorant. After playing in both the closed beta and official release, they realized that they were hooked; not just on the game itself, but equally fascinated with Riot's art style and their creative direction with the game.

## PRINT TO PRODUCT

Our products are design, 3D-printed, and hand-painted before being shipped out to our customers.

## WHAT ARE GUN BUDDIES?

Gun Buddies are little charms that can be attached to one's in-game weapon for purely aesthetic reasons. In essence, these gun buddies are just keychains for your gun. Gun Buddy Boys is all about making them into real life physical keychains you can actually hold.
